

# 2017 Summer Camp

## 2nd - 3rd Grade

2017 Summer Camps will begin June 19<sup>th</sup> and be offered through the week of August 21<sup>st</sup>

Junior camps for kids entering 2nd and 3rd grade in the 2017-2018 school year. The minimum age for these camps is 7 years old by the start date. Camp sessions are week long, half-day programs. Sign up for a morning or afternoon camp, or **register for Lunch and stay at BadgerBOTS all day**. All camps are \$275.

### Junior Camp Schedule

#### Junior LEGO Robotics \$275

In the Junior LEGO Robotics Summer Camp, kids will build and program a LEGO Mindstorms robot. Campers will work with a partner to construct a simple wheeled robot, learn to measure distance and turns, and use this information to create a program for their robot to move around on its own.

#### Scratch Junior \$275

During the week we will explore how to use technology to tell stories and make games. Participants will learn real programming concepts such as logic, variables, and loops -just like the older kids learn in Scratch camp.

#### LEGO WeDo \$275

This is a camp for LEGO building fanatics. Campers will work with a partner and use the brand-new LEGO WeDo 2.0 to build multiple moving models a day. In this camp students will learn about simple machines as well as programming basics while we build models that respond to sound, movement and changes in distance.

#### Stay for Lunch Group - \$50 per week.

Can't decide on just one camp to attend? Want a full-day camp option? Sign up for a morning and afternoon camp and stay at BadgerBOTS for lunch! Send campers to BadgerBOTS in the morning with a packed lunch.
