

Is your child between the ages of 8 and 11?

Does your child have a diagnosis of high functioning autism, Asperger's Syndrome or PDD-NOS?

Does your child only speak and understand English?

If so, your child is invited to participate in a research project evaluating language and attention at the Waisman Center. Two visits lasting about two hours each are required and can be scheduled during school breaks, after school, or on Saturdays. Families will be compensated \$75 for their time for **each** visit and mileage is reimbursed for families traveling more than 10 miles!

Call us at 608-263-3123 for more information.

This is not a school-sponsored activity and the Middleton-Cross Plains Area School District does not provide support or endorsement of this program/activity. It has neither reviewed nor approved the program, personnel, or activities announced in this brochure/flyer. Permission to distribute this material must not be considered a recommendation or endorsement by the school district.

This study is being conducted by principal investigators Dr. Susan Ellis Weismer and Dr. Margarita Kaushanskaya at the Waisman Center on the University of Wisconsin-Madison campus.
