

ELEMENTARY OPTION A1

MIDDLE SCHOOL FEEDER SCENARIOS

Evaluation Criteria	Elementary School(s) Feeding Two Middle Schools in Scenario (with general geographic division in parentheses)			
	Sunset Ridge (Northeastern neighborhoods to Kromrey; rest to Glacier Creek)	West Middleton (Neighborhoods southwest of Pioneer & Mineral Point Road intersection to Glacier Creek; rest to Kromrey)	Pope Farm (Neighborhoods north of Old Sauk Road to Kromrey; rest to Glacier Creek)	West Middleton & Pope Farm (East of Junction Rd plus 25 to Kromrey; Rest of Pope Farm plus western West Middleton neighborhoods to GC)
1	Glacier Creek slightly over capacity with ↑ enrollment; Kromrey slightly under capacity with ↓ enrollment	Glacier Creek slightly over capacity with ↑ enrollment; Kromrey slightly under capacity with ↔ enrollment	Glacier Creek slightly over capacity with ↑ enrollment; Kromrey slightly under capacity with ↔ enrollment	Glacier Creek significantly over capacity with ↑ enrollment; Kromrey well under capacity with ↔ enrollment
2	Similar MS FRL % to '18-'19 & other engagement impacts	Lower FRL % at GC; higher FRL % at Kromrey & other impacts	Similar MS FRL % to '18-'19 & other engagement impacts	Similar MS FRL % to '18-'19 & other engagement impacts
3	Logical geographic split possible in rural part of Sunset Ridge attendance area	Unifies SE neighborhoods at same MS; neighborhoods close to WM to different MS's	Unifies all of Blackhawk neighborhood at same middle school	Impacts increase with two elementary schools involved instead of one
4	High student change compared to other 3 scenarios	Moderate student change compared to other 3 scenarios	Moderate student change compared to other 3 scenarios	Low student change compared to other 3, but duration is shortest
5	Middle school fiscal impact appears similar in all four scenarios, pending more detailed transportation analysis			
6	>170 SR students at each MS, back & forth with 3 rd MS?	>100 West Middleton students at each MS (grades 5-8)	>100 Pope Farm students at each MS (grades 5-8)	>70 grade 5-8 students from each of two ES's at each MS
7	Contiguous MS boundaries	Not contiguous MS boundaries	Contiguous MS boundaries	Not contiguous MS boundaries
8	Shorter MS bus rides for eastern SR neighborhoods	Shorter MS bus rides for SE neighborhoods; fewer buses?	Potential for fewer buses with Blackhawk unification to 1 MS	Most similar to today's routes

NOTE: THIS MATRIX TO BE FRAMED AND DISCUSSED AT BOUNDARY COMMITTEE'S OCTOBER 7 MEETING

Prepared: 10/2/19

ELEMENTARY OPTIONS D2.1, D3, D3.1, D3.7

MIDDLE SCHOOL FEEDER SCENARIOS

Evaluation Criteria	Elementary School(s) Feeding Two Middle Schools in Scenario (with general geographic division in parentheses)			
	Sunset Ridge (Southeastern neighborhoods in & near City to Kromrey; rest to Glacier Creek)	West Middleton (Neighborhoods south of Mineral Point Road to Kromrey; rest to Glacier Creek)	Pope Farm (Neighborhoods north of Old Sauk Road to Kromrey; rest to Glacier Creek)	West Middleton & Pope Farm (East of Junction Rd plus 25 to Kromrey; Rest of Pope Farm plus western West Middleton neighborhoods to GC)
1	Glacier Creek slightly over capacity with ↑ enrollment; Kromrey slightly under capacity with ↔ enrollment	Glacier Creek slightly under capacity with ↑ enrollment; Kromrey slightly over capacity with ↔ enrollment	Glacier Creek slightly under capacity with ↑ enrollment; Kromrey slightly over capacity with ↔ enrollment	Glacier Creek slightly over capacity with ↑ enrollment; Kromrey slightly under capacity with ↓ enrollment
2	Similar MS FRL % to '18-'19 & other engagement impacts	Lower FRL % at GC; higher FRL % at Kromrey & other impacts	Similar MS FRL % to '18-'19 & other engagement impacts	Lower FRL % at GC; higher FRL % at Kromrey & other impacts
3	Logical geographic split possible in rural part of Sunset Ridge attendance area	Unifies SE neighborhoods at same MS; neighborhoods close to WM to different MS's	Unifies all of Blackhawk neighborhood at same middle school	Impacts increase with two elementary schools involved instead of one
4	Moderate student change compared to other 3 scenarios	Moderate student change compared to other 3 scenarios	Low student change compared to other 3 scenarios	Low student change compared to other 3 scenarios
5	Middle school fiscal impact appears similar in all four scenarios, pending more detailed transportation analysis			
6	>170 SR students at each MS, back & forth with 3rd MS?	>120 West Middleton students at each MS (grades 5-8)	>110 Pope Farm students at each MS (grades 5-8)	>70 grade 5-8 students from each of two ES's at each MS
7	High contiguity in comparison	Moderate contiguity compared	Low contiguity in comparison	Moderate contiguity compared
8	Shorter MS bus rides for eastern Sunset neighborhoods	Shorter MS bus rides for SE neighborhoods	Potential for fewer buses with Blackhawk unification to 1 MS	Most similar to today's routes
