

Spark Family Newsletter 2020-2021

We have exciting news from the summer - SPARK was one of five area organizations selected as a recipient of the Wisconsin Association of School Boards' Business Honor Roll award. District officials, led by Perry Hibner the Communications Director, nominated SPARK for this honor. The Honor Roll program recognizes school districts and local businesses who have partnered to provide additional learning opportunities or support to

students, staff, and their local communities. We value the collaboration between SPARK and MCPASD and are honored they feel the same way!
