Total All Fund Levy Prior To Computer Aid Adjustment		\$58,531,200
State Computer Aid Adjustment		659,525
Total All Fund Levy with Computer Aid Adjustment		\$57,871,675

REVENUE LIMIT EXPLANATION

In 1993 Wisconsin Statute 121.90 placed a limit on the funds a school district is able to generate from its two largest sources of revenue - general state aid and local tax levies. There are five basic steps in calculating the revenue limit:

Step 1:

Determine the previous year's (2009-10) revenue limit base by adding general state aid, tax levy for Funds 10, 38 and 41, and state computer aid in lieu of taxes.

Formula: General State Aid + Tax Levy (Funds 10, 38 & 41) + Computer Aid = Base Revenue Limit

MCPASD: $\$10,413,233 + \$49,652,257 + \$654,798 = \$60,720,288$

Step 2:

Determine the revenue base per member by dividing the revenue base by an average of the district's three previous September membership (enrollment) totals and a percentage of the summer school membership for each year.

Formula: Revenue Base \div Average 2007, 2008 and 2009 September Membership (including summer school) = Revenue Base per Member

MCPASD: $\$60,720,288 \div 5,801 = \$10,467.21$

Step 3:

Determine the maximum allowable revenue base per member by adding the allowable per member increase, as determined by the state legislature, to the revenue base per member.

Formula: Allowable per Member Increase + Revenue Base per Member = Maximum Allowable Revenue Base per Member

MCPASD: $\$200.00 + \$10,467.21 = \$10,667.21$

Step 4:

Determine a new three-year membership average.

Formula: 2008 and 2009 September Membership (including summer school) and actual September 2010 Membership (including summer school) \div 3 = Three-Year Membership

MCPASD: $5,865 + 5,789 + 5,956 \div 3 = 5,870$

REVENUE LIMIT EXPLANATION - continued

Step 5:

Determine the revenue limit by multiplying the maximum allowable revenue base per member by the new three-year membership average.

Formula: Maximum Allowable Revenue Base per Member x Three-Year Membership Average =
Revenue Limit

MCPASD: \$10,667.21 x 5,870 = \$62,616,523

A school district's allowable revenue limit is increased by various factors such as new costs that occur to provide special education services for students moving into a school district that previously received special education services from another district. The revenue limit may also be increased when a district is required to assume new financial responsibilities from another governmental unit, passes a referendum for the express purpose of increasing the limit, loses Federal Impact Aid, or is experiencing declining enrollment. In 2010-11, our school district's revenue limit will increase by \$199,528 to fund additional special education services for students that have moved into our school district. The 2010-11 revenue limit calculation also includes a carry-over of \$202,407 for unused revenue limit authority from the 2009-10 fiscal year.

After the revenue limit and any exemptions to the limit have been determined, a district's allowable tax levy can be determined. This is done by subtracting the general state aid the school district will receive from the revenue limit (\$8,836,928 is the certified amount for 2010-11 as provided by DPI). The allowable tax levy is distributed among the general operating fund (Fund 10) and capital (maintenance) projects fund (Fund 41). Any debt service levies derived from new debt since 1998 that were not approved by referendum must also be included in the revenue limit (Fund 38) calculation. The 2010-11 levy for Fund 38 is \$321,750 to fund principal and interest payments for replacement of the mechanical system at Park Elementary and Energy Conservation (Performance Contract) project. This results in an allowable tax levy subject to the revenue limit of \$54,181,530.

The levies for the referendum approved debt service (Fund 39), community service fund (Fund 80) and prior year taxes (payments made to municipalities in the prior year for uncollectible personal property taxes) are not subject to the revenue limit. This increases the total allowable tax levy to \$58,531,200.

Beginning in the 1999-00 fiscal year, the state exempted business computer equipment from school district property values. The state compensates school districts for this loss in property value by providing computer aid equal to the amount of taxes that the district would have received from the value of the exempted business computer equipment. In 2010-11, our district is projected to receive \$659,525 in state computer aid. This amount is subtracted from the total allowable tax levy. This results in a total school tax levy of \$57,871,675 for the 2010-11 fiscal year.

Additional information from the Wisconsin Department of Public Instruction regarding revenue limits can be found on the DPI School Financial Services website at:

www.dpi.state.wi.us/sfs/revlimex.html

Tax Levy
2010 - 11

**TAX LEVY COMPARISONS
2009 AND 2010**

2009 TAX LEVY

Equalized Valuation ¹	\$5,563,631,129
Total Levy	\$ 54,416,842
Tax (Mill) Rate	9.78
Estimated Tax Impact ² on:	
\$200,000 Residential Property	\$ 1,956
\$300,000 Residential Property	\$ 2,934
\$450,000 Residential Property	\$ 4,401

2010 TAX LEVY

Equalized Valuation ³	\$5,390,266,262
Total Levy	\$ 57,871,675
Tax (Mill) Rate	10.74
Estimated Tax Impact ² on:	
\$194,000 Residential Property	\$ 2,084
\$291,000 Residential Property	\$ 3,125
\$436,500 Residential Property	\$ 4,688

The 2010 Tax Levy represents a 6.35% increase over the 2009 Tax Levy.

The 2010 Tax (Mill) Rate represents a 9.82% increase over the 2009 Tax Rate.

¹October 1, 2009 certified equalized valuation.

²Assumes same assessment of 100% (full equalized value) for both years with a 3% decrease in value for 2010.

³October 1, 2010 certified equalized valuation.

TAX LEVY EXPLANATION

The school district tax levy and tax rate are made up of several components. These include:

1. Amount of operational dollars needed (General Fund levy)
2. Amount of funding required for annual long-term debt principal and interest payments (Debt Service Fund levy)
3. Amount of funding needed to subsidize community services operations such as the indoor swimming pool, Performing Arts Center and Airport Road soccer fields (Community Service Fund levy)
4. Amount of funding segregated for capital maintenance projects (Capital Projects Fund levy)
5. Equalized (full market) value of property in the school district
6. Tax (mill) rate

The **tax levy** is the total amount of property taxes levied or assessed to municipalities in our school district to fund school operations and outstanding debt. The maximum tax levy amount, other than referendum-approved long-term debt or long-term debt incurred prior to 1993 and community services operation, is determined through the state's revenue cap (limit) formula. Taxpayer approval, through the referendum process, is required if a school district wants to exceed the revenue limit. The tax levy approved at the Annual Meeting has been adjusted for actual student enrollment (September Third Friday Official Count), certification of the District's state general (equalization) aid & business computer equipment tax exemption aid amounts for the 2010-11 fiscal year.

Equalized valuation is the fair market value of all properties within a school district as determined by the Wisconsin Department of Revenue. The Wisconsin Department of Revenue uses property sales information to determine a municipality's equalized or "fair market" valuation. The District's equalized property value for 2010-11 as certified by the Wisconsin Department of Revenue (for purposes of school tax levy appropriation) is \$5,390,266,262. This is a decrease of 3.12% from the 2009-10 equalized value.

The school district apportions the certified (approved) tax levy among the municipalities according to the proportion of equalized value each municipality has in comparison to the total equalized value of the school district. Page 31 of the Adopted Budget Report reflects the school tax levy apportionment for 2010-11.

The table below is an example of the school tax levy apportionment based on 2009 equalized property values and 2009-10 tax levy for purposes of the *illustration* on the following two pages:

MUNICIPALITY	2009 Equalized Value (TID Out)	% of Total Equalized Valuation	2009-10 Tax Levy
City of Middleton	\$2,315,714,800	41.622364%	\$22,649,576.59
Town of Berry	88,695,696	1.594205%	867,516.02
Town of Cross Plains	122,447,969	2.200864%	1,197,640.69
Town of Middleton	1,063,657,585	19.118046%	10,403,436.89
Town of Springfield	269,802,216	4.849391%	2,638,885.44
Town of Westport	199,241,649	3.581144%	1,948,745.47
Village of Cross Plains	322,468,600	5.796010%	3,154,005.60
City of Madison	1,181,602,614	21.237975%	11,557,035.30
DISTRICT TOTAL	\$5,563,631,129	100.000000%	\$54,416,842.00

Each municipal clerk/treasurer then apportions their municipality's portion of the school district tax levy among property owners based on the assessed value of each individual property.

TAX LEVY EXPLANATION - continued

To calculate the **school tax (mill) rate**, the district uses the tax levy certified (approved) by the School Board in October and divides that amount by the total equalized value of the school district. The tax (mill) rate is defined as the rate that one dollar per thousand dollars of equalized valuation will raise in property taxes. For example, one mill on an \$85,000 property would yield \$85.00. Twenty mills would yield \$20.00 x 85 or \$1,700.00. The 2010-11 school tax rate is \$10.74 per thousand dollars of equalized valuation and is based on a tax levy of \$57,871,675 and a 3.12% decrease in equalized property valuation. The Board of Education reduced the 2010-11 debt service levy by \$400,000 utilizing a transfer from the General Fund and did not levy the full amount of revenue limit authority (\$229,622).

Municipalities utilize **assessed property value** versus equalized property value in determining the tax (mill) rate for the individual property owner. The municipality will recalculate the tax rate on an assessed value basis. The school tax rate will vary in each of the school district's eight municipalities based on each municipality's assessment ratio (level of total assessed valuation compared to total equalized or "fair market" valuation). The following *illustration* relative to the 2009-10 tax levy and 2009 property values may be helpful to explain this situation:

Citizen A lives in the Village of Cross Plains and Citizen B lives in the City of Middleton. Both citizens own property with an equalized or "fair market" value of \$300,000.

Citizen A's property was assessed at 99.45% of its fair market value (as is all property in the Village other than agricultural land) and Citizen B's property was assessed at 96.18% of its fair market value (as is all property in the City other than agricultural land).

Citizen A and Citizen B wondered who assessed for school taxes because the assessment rates were different. They learned this problem was solved by "equalizing" - adjusting each community's assessments to approximate actual value on a state-wide basis as determined by the Wisconsin Department of Revenue.

A short-cut method of estimating school taxes works very well. The following examples illustrate the process:

To determine the equalized tax (mill) rate:

	\$ 54,416,842	Total 2009-10 School District Tax Levy
÷	\$ 5,563,631,129	2009 School District Equalized Value
=	\$ 9.78	(.009780814) per \$1,000 of Equalized Valuation)

School Tax Calculation for Citizen A:

	\$3,154,005.60	Village's Share of School Tax Levy
÷	<u>\$ 320,383.280</u>	Village's Assessed Valuation (99.45% of Equalized Value)
=	\$ 9.84	Assessed Mill Rate (.009844476 per \$1,000 of Assessed Valuation)

TAX LEVY EXPLANATION - continued

Citizen A Assessed Value:

	\$	300,000	<i>Equalized (Full Market) Property Value</i>
x		99.44%	<i>Village's Assessment Ratio</i>
	\$	298,320	<i>Assessed Property Value</i>
x		9.84	<i>Mill Rate (.009844476)</i>
=	\$	2,935	<i>School Taxes</i>

School Tax Calculation for Citizen B:

	\$	22,649,576.59	<i>City's Share of School Tax Levy</i>
÷		2,227,254.495	<i>City's Assessed Valuation (96.18% of Equalized Value)</i>
=	\$	10.17	<i>Assessed Mill Rate (.010169281 per \$1,000 of Assessed Valuation)</i>

Citizen B Assessed Value:

	\$	300,000	<i>Equalized (Full Market) Property Value</i>
x		96.18%	<i>City's Assessment Ratio</i>
	\$	288,540	<i>Assessed Property Value</i>
x		10.17	<i>Mill Rate (.010169281)</i>
=	\$	2,935	<i>School Taxes</i>

It can be seen from this example that Citizen A and Citizen B, who have homes with the identical equalized or "fair market" values, did pay the same amount of school taxes. The equalization process makes the school tax rate throughout a school district the same, even though the various municipalities within the district are assessing at different levels. The examples given also indicate why comparing assessed tax or mill rates between various communities are misleading.

Municipalities may have more than one school district, fire district, or other governmental entity to collect property taxes for resulting in the possibility of property owners in that municipality having a different tax (mill) rate. Property owners may realize different changes (typically increases) in their property assessments depending upon conditions within their community and surrounding communities. The school district does not participate in the process of determining property values (either assessed or equalized).
