# WHY WE ARE GOING TO REFERENDUM ON NOVEMBER 6

## PLANNING FOR OUR GROWTH

MCPASD is the fastest growing school district in Dane County the last three years. The District has grown by more than 750 K-12 students since 2012 and is projected to **grow by another 2,200 students over the next decade.**

## CONTINUING OUR ACADEMIC EXCELLENCE AND LEADERSHIP

MCPASD has had a larger percentage of schools significantly exceeding standards on the State Report Cards than any district in Dane County. The referendum would create **dynamic, flexible, and modern school facilities** and allow the District to continue to deliver on its promise to be inclusive, innovative and inspiring.

## REMAINING FISCALLY RESPONSIBLE

The referendum honors the Facilities Planning Committee's and community's desire to prioritize the elementary and high school level needs. Of the nearly 3,400 who took the survey, **55% supported a referendum of \$160 million** and **66% supported one of \$130 million.**
