# EXECUTIVE SUMMARY REPORT

## ADDITIONS & REMODLEING TO: KROMREY MIDDLE SCHOOL

1/17/2014

---

### What's New?

The recent warm spell has helped crews continue to make progress outside on roofing, structure and geothermal well drilling. Inside progress is continuing in the 5<sup>th</sup> grade wing and cafeteria. With the structure nearing completion and the 5<sup>th</sup> grade wing almost ready for finishes the project is really taking shape!

### The Past Week

- 6<sup>th</sup>, 7<sup>th</sup> & 8<sup>th</sup> grade wing structural steel
- Roofing at the cafeteria
- Drilling geothermal wells
- Slab on grade in the cafeteria
- Exterior wall framing

### Coming Up in the Weeks Ahead

- 6<sup>th</sup>, 7<sup>th</sup> & 8<sup>th</sup> grade wing structural steel
- Roofing at the cafeteria
- Drilling geothermal wells
- Exterior wall framing
- Begin 5<sup>th</sup> grade wing finishes
- Begin exterior masonry on 6<sup>th</sup>, 7<sup>th</sup>, & 8<sup>th</sup> grade wing

Interior masonry walls have started in the cafeteria.

Sheathing is on the exterior walls and spray foam insulation is being applied in preparation for brick and stone.

Looking west from the existing gym the new school continues to take shape.

MEP rough-ins are complete in the 5<sup>th</sup> grade wing.

**Did you know?** The exterior of the building is sprayed with closed cell foam insulation. Not only does closed cell foam have excellent insulating properties, but it also prevents the transmission of air and water vapor through the enclosure of the building.
