

EXECUTIVE SUMMARY REPORT

ADDITIONS & REMODELING TO: KROMREY MIDDLE SCHOOL

07/31/2015

What's New?

Throughout the project the final touches are being put in place. We have beautiful green grass growing on the field outside of the fieldhouse, brand new black asphalt, and a whole lot of floor finishes steaming along! All of this in preparation for the final completion of the building!

The Past Weeks

- Landscaping & Sod
- Asphalt
- Gym Flooring
- Interior Finishes & Cleaning

Coming Up in the Weeks Ahead

- Finishing up the gym flooring
- Hallway Floorings
- Landscaping

Asphalt Paving! Finally looking like a parking lot. Striping will be starting early next week!

Benches and lockers are installed in the locker rooms!

Sod is on the athletic field and the masonry is complete on the monument sign!

Final product in one of the new GTT rooms!

Did you know? Asphalt paving is 100% recyclable! Over 80 million tons are recycled annually! The asphalt that is torn out can be put right back into making new asphalt! A very efficient process!
