

West Middleton Elementary School Mission

A compassionate, collaborative community
that supports learning for ALL.

Our Guiding Principles

Building trusting relationships is the foundation for a compassionate, collaborative community.

Parents are our partners in education. They have their child's best interest at heart.

An asset-based mindset guides our work.

All learners will participate in high quality core instruction.

All staff share responsibility for the prevention of student failure.

The best learning environment for all students is in their classroom.
